Project Case Study

Crafting Coastal Luxury at 1Hotel Hanalei Bay

Objectives

Challenges

Solutions

For the transformative renovation of 1 Hotel Hanalei Bay, HMI Glass delivered a custom frameless shower enclosure solution that aligned seamlessly with the resort's wellness-driven philosophy and ultra-luxury design aesthetic. The project demanded exceptional precision and consistency across hundreds of guestrooms and suites while preserving the open, calming atmosphere central to the guest experience. Designed for a high-end coastal hospitality environment exposed to humidity, salt air, and constant use, HMI's engineered glass systems provided long-term durability without compromising elegance or visual simplicity. The clean, unobtrusive enclosures enhanced natural light, complemented the resort's organic materials and spa-inspired interiors, and reinforced the property's seamless connection between architecture, comfort, and the surrounding beauty of Kauai's North Shore.

Project Details

Brand: 1Hotel

Property Type: New Construction, Full-Service Luxury Hotel

Room Count: 252 guestrooms & 52 suites

Floors: 11

Product Supplied: HMI Frameless Series Swing Shower Doors

Completed: 2023

Project Team

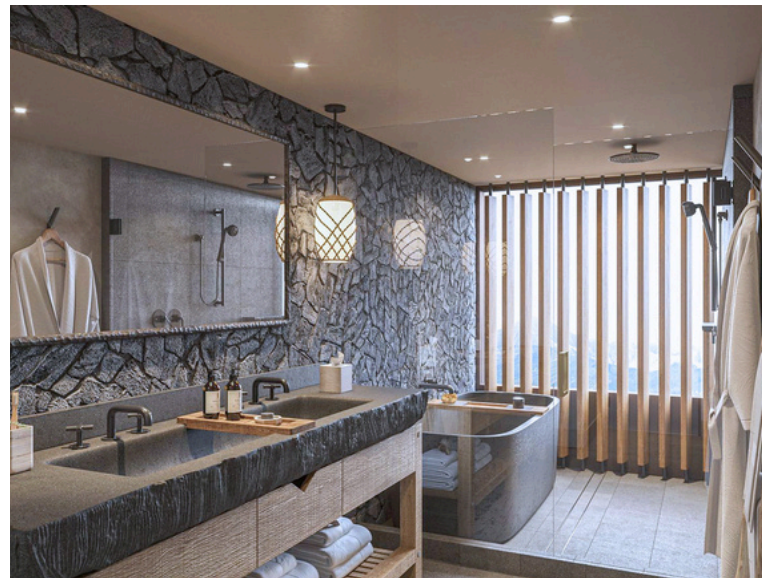

Developer: Starwood Capital Group

Architect of Record: G70

Design Architect: Lake Flato Architects

Interior Designer: NICOLEHOLLIS

General Contractor: Layton Construction

Key Benefits

Domestic Manufacturing

Unparalleled Service

Fast Leadtimes
